

SPRINT 3 - Proof of Daily Scrum Meetings

This document serves as proof to daily Scrum meetings. It will keep track of what every person does every day.

Sprints started occurring the day of the meeting with the product owner. This was because the team did not know what work to do before that.

20 May 2021 – 23 May 2021:

The team feels as though all the product backlog items which we planned to convert into working items have been completed. Everything stated in the Sprint Planning meeting has been completed as intended. No other work has been done

for functional requirements. During this period the only work done was work on the wiki.
